Ordering Your Seed

The mixtures in this brochure have been designed by Wildlife Biologists to provide the best wildlife habitat possible while meeting the requirements of USDA, Ohio Department of Agriculture (ODA), State, and Pheasants Forever conservation programs. By ordering your seed from Pheasants Forever, and selecting one of the mixtures in this brochure, you can be assured of receiving exceptional service, the highest quality seed on the market and great prices.

You may order seed through Pheasants Forever by using one of two methods:

1. Order seed and learn more about our available mixtures directly off of our website.

www.OhioPF.com

2. Order seed by contacting the Ohio Pheasants Forever Office:
Ohio PF/QF Regional Office
(866) 914-PFQF (7373)

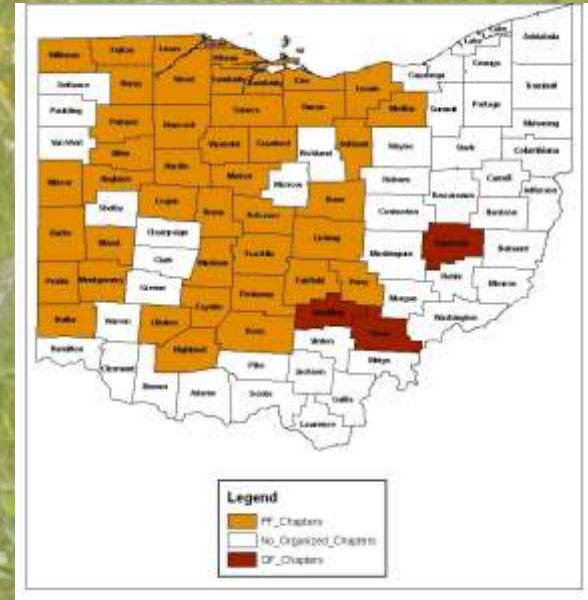

All prices include the cost of delivery, except orders that total less than 10 acres in size, there will be an additional UPS shipping charge. Orders are delivered in approximately 7 to 10 working days and are shipped directly to the address you provide when ordering.

You are not limited to the mixtures listed in this brochure. Pheasants Forever will be happy to put together any mixture you need for grasses, legumes, forbs and wildflowers. Just contact us for a price quote any time you need seed.

Note: Due to severe droughts during the 2011 growing season in some areas of the U.S., some seed species are in short supply. We will let you know if there are changes when you order.

Ohio Pheasants Forever and Quail Forever

Ohio's chapters are working with landowners throughout the state to help establish, improve and upgrade habitat, provide access to habitat equipment (no-till drills), educate our youth through programs and develop partnerships to improve wildlife benefits throughout Ohio.

That's a great start, but we can do even more with your help. If you want to join the most cost effective wildlife conservation group in the country, support wildlife habitat, educate the public and preserve our outdoor heritage in your areajoin us today!

Food Plot & Winter Cover Mixes

CRP Introduced Grass Mixes

Mixture 26 Ohio Bird & Buck Perennial Forage Mix

A unique combination of different clovers, legumes and chicory that produce superior habitat for deer, turkeys and upland game birds. Field tested in Ohio for the past 5 years. Plant 9lbs per acre. Discounts on large orders are available.

Member Price (9 lbs)=\$45.00
Non-Member = \$47.00

Mixture 27 Ohio Bird & Buck Fall Draw Mix

Seed this mix late summer early fall for a well proportioned blend of rape, pasja, purpletop turnips and kale that will provide deer with excellent forage in the winter months, create awesome strutting areas for big toms in the spring and brood rearing habitat for upland game birds. Seed at 8 lbs per acre.

Member Price (8 lbs) = \$41.00
Non-Member (8 lbs) = \$43.00

Mixture 28 Ohio Dove and Quail Mix

Over the last couple of years, there has been an increased demand for "Dove" type food plot mixes. This mix was designed to meet that need.

A combination of Sunflowers, Grain Sorghum and Millet will provide a great food source for Doves, and also provide food and cover for Quail, Pheasants, Song-birds and other Wildlife. Plant 8 lbs per acre. Leave plot for 2 years for brood cover.

Member Price (8 lbs) = \$18.00
Non-Member (8 lbs) = \$20.00

OHIO'S SIGNATURE SERIES

FROM BIRDS TO BUCKS—WE GOT YOU COVERED!

Mixture 29 Ohio Upland Blend

A proven success for 13 years!

This mixture of Sorghums and Millets will provide some of the best winter cover available for pheasants and quail. It will produce both food and excellent winter cover in the same location and increase the winter survival of your birds.

Bringing hens through the winter in better physical condition will increase your pheasant and quail production. Plant at 8 lbs per acre.

Member Price = \$20.00/ac
Non-Member = \$21.00/ac

Mixture 30 Ohio Marsh Mix

This combination of buckwheat and millets allows for late season seeding on those wet areas next to the blind. This mix should be broadcast due to seed size variation from mid-June to early July. Seed at 25 lbs per acre. Enjoy the Migration!

Member Price (8 lbs) = \$54.00
Non-Member (8 lbs) = \$57.00

All orders greater than 10 Acres
GET FREE SHIPPING

Mixture 31 Ohio Bird & Buck Winter Cover Mix

6 lbs. PLS/ac

A mixture of select perennial tall stiff stemmed native grasses that stand erect in those heavy snows, creating that ideal thermal cover deer and pheasants require.

*Remember if you are managing for pheasants winter cover should only comprise 10-20% of the home range.

Member Price (6 lbs) = \$45.00
Non-Member (6 lbs) = \$47.00

What is Best for Wildlife?

- 1) Select the correct mix: Think about your management goals right from the start to save you time and money. There are different habitat requirements depending on what species you are managing for. The more wildflowers and forbs, the better! Seeds and small insects are critical food sources for young birds!
- 2) **Don't Over Plant:** More seed per acre is not better, it can actually have a negative impact on the cover and wildlife. If you plant heavier (grass or food plot seed) **the plants become too thick, choke themselves out, and won't produce seed.**
- 3) Manage your grasslands: If you want to produce more wildlife, you need to manage grasslands every 3-5 years. There are programs and wildlife professionals that can assist you. Call us or visit our website for assistance.
